Education

Indian Institute of Information Technology, Bhagalpur

B.Tech in Computer Science and Engineering

CGPA: 8.20/10 (Absolute)

Nov 2022 - May 2026

Saint's Paul School, Sikar

Board of Secondary Education, Rajasthan, RBSE

Percentage: 96.20%/100

July 2020-May 2021

Suraj Smart School, Palsana(Sikar)

Board of Secondary Education, Rajasthan, RBSE

Percentage: 91.17%/100

July 2018-May 2019

Relevant Coursework

- Data Structures
- Algorithms
- OOPs
- Computer Networks
- DBMS
- Operating Systems

Projects

CLAI-AI Based CLI | *React, TypeScript, Gemini API*

June 2025 – July 2025

- Engineered an **AI-powered CLI tool** using **Gemini API** to generate and execute bash scripts automatically, reducing manual command-line efforts.
- Automated **repetitive technical tasks**, lowering routine work and improving developer productivity across multiple use cases.
- Achieved high accuracy in command generation during multiple test runs, ensuring reliable task completion and consistent workflow performance.

Maths Marks Prediction System | *Python, Flask, Pandas, NumPy, Matplotlib, Scikit-learn, CatBoost*

June 2025

- Built a complete ML workflow with **4 stages** covering data ingestion, preprocessing, feature engineering, and supervised model training.
- Achieved **88% accuracy** on **1,000+ student records** with **CatBoost**, supported by **5+** detailed statistical and visual EDA insights.
- Serialized and integrated the trained CatBoost model, optimize execution speed

CodeBuddies | *ReactJS, JavaScript, NodeJS, Socket.io, CodeMirror*

November 2024 – January 2025

- Developed a **collaborative code editor** supporting **concurrent users** via **WebSocket connection**, enabling **synchronized editing** in realtime.
- Developed a **multi-user video calling system** integrated with a **real-time collaborative code editor**, ensuring smooth real-time interaction.
- Improve **realtime data handling efficiency**, ensuring stable synchronization and consistent performance during **10+ collaborative testing sessions**.

Technical Skills

Languages: C++/C, JavaScript, Python

Framework/Libraries: ReactJs, ExpressJS, NodeJS, Flask

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, Postman, VS Code

Cloud: Render, Vercel

Achievements

- Solved over **850 coding problems** across platforms, including 600+ on **LeetCode** and 300+ on **CodeChef** and **Codeforces**. < *LeetcodeLink* >
- Selected for **Amazon ML Summer School 2025**, a competitive program on advanced **Machine Learning** concepts and practical industry applications. < *Certificate* >
- Maintained a **LeetCode rating of 1800+**, showcasing coding proficiency.

Position Of Responsibility

Lead : Served as **Frontend Lead – IIITBH E-Cell**, leading a team of **5 developers** to build a responsive platform that improved engagement and ensured design consistency.

Core Member : Secured and negotiated sponsorships as a core member of the Sponsorship Team for **Enyugma 2023**, IIIT Bhagalpur's annual techno-cultural fest, driving funding and support for event activities.
